

## “ELITE”

Anelto’s Elite 4G LTE unit provides quick access to an emergency call center. It also offers a state of the art location service with our aGPS and WiFi built in. We have designed the Elite PERS to include our easy to use wearables. These wearables are waterproof and can roam up to 300 feet from your device. Here are some of the other features.

- 1) Enhanced audio for easy to hear voice prompts
- 2) Adjustable Microphone sensitivity levels
- 3) Second Button built for voice reminders and messages from friends and or caregivers and family.
- 4) Remotecare247 phone app to support the Elite unit with GeoFencing and favorite places notification.
- 5) Optional fall detect button is available for the Elite system.
- 6) 48hr battery life between charges.
